### Integration in Swedish

The integration course in Swedish includes 25 lessons/week, i.e. 4-6 lessons/day. Swedish and social studies include 20 lessons/week altogether. Besides these, you can take some of the other optional subjects. Finnish studies (5 lessons/week) take place together with Swedish.

### Swedish, basic course

This course is for you if you want to learn Swedish from the beginning and already know the Latin alphabet. At the end of the course you should be able to manage more

easily in everyday situations, understand the essentials of the news and produce shorter texts in Swedish.

### Swedish, advanced course

You can participate in this course if you already have basic knowledge of Swedish and want to immerse yourself in the language. The course is helpful for either future studies, work or the language test at the B1–B2 level, which takes place at Alma in Vasa.
