

ATTACHMENT Rules for the allotment cultivation

Rules for allotment cultivation 2024

General

- You must grow and maintain the entire plot during the whole growing season.
NB the growing season starts 1.5. and ends 30.9.

Plants

- You are only allowed to sow and plant **annual useful plants and flowering plants**. Cultivation of the perennial plants is forbidden (for example berry bushes, rhubarb, etc.).
- The plants should be placed in a way so that they don't grow on the paths or spread over the plot border.

Allotmentplots

- Marking off the plot** (with planks, fences) **is forbidden**. Paths and the neighboring plots are boundary markers. Self-delimitation of the plot is absolutely forbidden.
- The plot is intended **only for growing** - you can not place greenhouses, grills, composts or other structures on it.
- It is permitted to place neat, max. 80 cm high toolbox on the plot (1/plot). Note that pathways must remain free, when placing the toolbox.
- After the growing the plot should be tidied up and all things on the plot should be taken away from the area.
- The city may remove the non-compliant structures** as well as other things left behind at the end of the growing season at the expense of the farmer, if they are not disposed of within a separately agreed time after receiving a request.
- Alien species growing on the plot must be removed in accordance with alien species control regulations**. The farmer is obliged to remove the alien species growing on his plot and around it.

- Farmers take care of cutting the grass around their own plot.

Water and soil improvement

- Those who water with watering can (instead of a hose) have priority to the water point.
- Water points are opened in the spring when the danger of frost has passed and correspondingly closed in the autumn before the frost occurs.
- Water points and water is meant **only for the farmers for allotment cultivation use.**
- Farmers are responsible for soil improvement of their own plots.

Waste

- Burning waste and making fire in general is absolutely forbidden on the whole allotmentplotarea.
- **Recycling of waste:**
 - Compostable plant residues in the area marked out with a sign. Plastic and other waste are excluded from this area.
 - Bringing plant residues from outside the growing area is forbidden.
 - Combustible waste in for the purpose possible waste bin.
 - **Other kind of waste that does not have a receiver you must take away from the growing area yourself.**

We oversee that the rules are followed and, if necessary, instruct farmers to correct any non-compliances found. Failure to follow the instruct may result in the loss of the right to lease the allotment plot.
